

LEGO EXPRESS

Core Values Activity

By www.flstartingpoint.com; hello@startingpoints.com

Materials:

Assorted LEGO pieces
2 tables

Setup:

Place the tables 5-10 feet apart. Put all the LEGO pieces on one table.

Instructions to the team:

Your task is to move as many LEGO bricks as you can from one table to the other. You will have 1 minute to strategize and 3 minutes to move the pieces. However, each team member may use only one finger to touch each brick. Only one brick may be "in play" at a time. If any bricks fall on the floor, I will return them to their starting place.

Variations:

Multiple bricks may be "in play" at a time.

Discussion:

If your team tried the variation, was the team able to split up and move more LEGO pieces in the 3 minutes? Or was the team more efficient having everyone focused on moving one brick?

How did the team decide on what technique to use?
