

# RECYCLED ART CORE VALUES ACTIVITY

By The Bayou Builders

## Objectives:

- Working together to develop an action plan
- Choosing from a large set of items in a short amount of time
- Exercise creative thinking
- Explaining the decision making process utilized

## Notes for the Coach/Team Mentor:

The more objects you provide, the more team members are challenged with the task of narrowing options, developing creative ideas and deciding together on a plan of action within a short amount of time.

Developing a plan of action quickly can be the biggest challenge. It is a great way for team members to practice skills in communication and compromise.

This activity can be completed with a variety of objects that are ordinarily thrown out or sorted to be

recycled. Packaging works well, but so do office supplies, paper tubing, cans, bottles, newspaper, etc.

At the end of the activity have the team explain their "Recycled Art" and the decisions they made in developing it.

## Instructions to team:

You have 5 minutes to use any of the items in front of you to make a piece of "recycled art" that represents your team.

## Before you begin:

- Collect an assortment of recyclable objects to use for construction.
- Supply scissors and tape to assist with construction, as needed.
