

# GET TO KNOW ME

## Core Values Activity

By Sanjay and Arvind Seshan

Hello  
my name is

### Materials:

Small strips of paper

Pens/pencils

A box/can

### Set up:

On a board or large paper, label each teammate's first name.

### Instructions:

Each teammate should take 4 small strips of paper and write something about themselves - one fact on each paper.

Ideas on what to write about: How many siblings you have, where you lived before you moved to this town, what instrument you play, what food you like the best, what activity you like the best, etc.

Place all the completed strips into a box.

Have each teammate pick one strip of paper at a time and read them out loud and guess who it is about? If the student picks their own clue, they should put it back.

Stick them on a board or wall under the correct name.

### Discussion:

Did you learn something new about each of your teammates? Did you find you have more in common than you thought?
