

SHARK ISLAND

Core Values Activity

By Droids Robotics

Materials:

Tape

Water bottle or small bag

Set Up:

Using tape, mark out a semi-circle (to represent an island) Leave a water bottle/bag about 3 ft (more than any one child's arm length) away from the island.

Instructions:

Your team is stuck on an island surrounded by sharks. Your own source of water/food is the water bottle/bag floating outside. But the waters are shark infested. Retrieve the bottle/

bag from the water without stepping outside the circle.

Variations:

Leave some items in a bag that may be used (string, paper clip, rubber band).

Discussion:

How did the team work together? Was there one idea or many ideas that were considered?
