

STAYING ALOFT

Core Values Activity

By www.fllstartingpoint.com; hello@startingpoints.com

Materials/Prep

1 square of toilet paper

Instructions to the team:

Here is a square of toilet paper. See how long you can keep it in the air by blowing it. You are not allowed to touch the square; you can only use your breath.

Discussion:

This game encourages teamwork and cooperation - but mainly, it's just a fun thing for the team to do. Ask team members if they find it easier to focus on the FLL challenge after taking a short break.

Does working together to keep the square of toilet paper aloft make it easier for them to work together on the challenge, too?
